Request for Estimate/ Quote

Backflow Prevention Device Testing & Inspection

Victor Fire District is seeking an estimate to complete the following service at Victor Fire District facilities:

Annual cross-connection backflow prevention device testing & inspection

Scope of work:

- Perform annual backflow testing for the following devices:
 - 34 Maple Ave - (2) 2" Watts
 - 84 Maple Ave - (1) 4" Watts
 - 380 High St - (1) 2" Watts
 - 7353 Main St, Fishers - (1) 2" FEBCO
- Provide inspection report in digital PDF format and submit any required testing documentation to the applicable authority.
- Any repairs identified during testing shall require prior authorization and shall be quoted separately.
- Estimate shall list the testing cost for each location/device and the total annual cost.
- Testing shall be performed by a qualified/certified backflow prevention device tester.
- Service contract will commence January 1, 2027

Buildings will be available for inspection Monday-Friday between the hours of 9 am and 3 pm. We request the courtesy of a 24-hour notice by calling 585-924-3321.

Selected vendor shall provide upon award of contract:

Certificate of Liability, Proof of Workers Compensation Coverage, W-9

Deadline for submission is 12 pm on Wednesday, November 18, 2026:

Victor Fire District
Attn: District Secretary
34 Maple Ave
Victor, NY 14564
