VICTOR FIRE DISTRICT

Purchase of one Utility Terrain Vehicle (UTV) With Accessories and two Rescue Skid Units

BID SPECIFICATIONS PACKAGE

November 10, 2026

Address
Victor Fire District
34 Maple Avenue
Victor, NY 14564

VICTOR FIRE DISTRICT

Purchase of UTV and Two Rescue Skid Units

Instructions to Bidders

Sealed bids will be received by the Fire District Secretary on behalf of the Board of Fire Commissioners of the Victor Fire District at 34 Maple Avenue, Victor, New York 14564 until December 3, 2026, at 2:00 p.m., prevailing time, for purchase and delivery of one utility terrain vehicle with accessories, one fire suppression skid unit, and one EMS patient transport skid unit. Bids will be publicly opened at the same location and time.

The envelope containing the bid shall be marked "Victor Fire District – UTV and Rescue Skids Bid" and shall identify the bidder's name and business address. Bids must be received before the deadline stated. Late bids will not be considered.

Bidders shall provide the complete UTV with its installed vehicle accessories and the two skid units as specified. Prices shall include delivery, setup, and a demonstration of the equipment. The two skid units shall be compatible with the proposed UTV and its payload and cargo-bed limitations. Each proposed substitution shall be specifically described.

The preferred reference vehicle is the 2027 Polaris RANGER CREW XD 1500 NorthStar Premium, or equal. Brand references describe the desired configuration and performance and do not, by themselves, exclude responsive equivalent products. Any proposed equivalent must satisfy the stated minimum requirements.

Each bid shall contain a signed non-collusion certification as required by General Municipal Law §103-d, the completed Bid Form, specification responses and exceptions, manufacturer literature, and delivery and warranty information.

The Board of Fire Commissioners reserves:

(1) The right to examine and investigate any bidder as to the bidder's ability and responsibility to furnish the equipment in accordance with the Bid Specifications Package;

(2) The right to reject any and all bids;

(3) The right to waive informalities that do not constitute material deviations from the Bid Specifications;

(4) The right to award the contract to the lowest responsible bidder submitting a responsive bid that meets the specifications, in accordance with General Municipal Law §103;

(5) The right to examine and consider bids received for a period of sixty (60) days following the bid opening; and,

(6) The right to consider proposed equivalent equipment or substitutions, provided the bidder clearly identifies and documents any deviations from the specifications. The Board of Fire Commissioners shall determine whether such equipment meets the District's stated minimum requirements.

Purchase of UTV and Two Rescue Skid Units

Proposal Requirements

General Information

Bidders shall indicate compliance with the numbered minimum specifications by identifying any exceptions in a separate attachment headed "Exceptions," with reference to the specification number. An item without a stated exception will be understood as included in the bid. Equivalent products must be supported by manufacturer specifications.

Each bid shall contain a detailed description of the make, model, model year, accessories, and skid units offered, with itemized pricing. All equipment shall be new and unused. The District may evaluate unit compatibility, total loaded weight and manufacturer-rated capacities.

Addenda and Interpretations

Requests for interpretation shall be made in writing to the District Secretary at info@victorfire.com no later than Monday, November 30, 2026. Any change to the bid requirements will be issued to prospective bidders by written addendum. No verbal interpretation will be binding. Any interpretation requests and answers will be posted on the Fire District's website.

Bid Evaluation and Award

The District will review bids for conformity with these specifications, bidder responsibility, price, delivery and warranty support, and any stated exceptions. Contract award under competitive bidding will be to the lowest responsible bidder submitting a conforming bid, as determined in accordance with applicable law.

No bid shall constitute a contract unless and until accepted by formal action of the Board of Fire Commissioners. The District may request a copy of any proposed sales agreement prior to award; conflicting vendor terms will not supersede the final District-approved agreement.

Late submissions will not be accepted. Once submitted, a bid is final and may not be modified. A bid submission may be withdrawn only prior to the submission date.

Sales Tax, Delivery and Payment

The District is exempt from New York State sales tax. Bids shall state a firm total delivered and installed price, excluding sales tax, and separately identify any freight, documentation, setup or other fees. Delivery shall be to 34 Maple Avenue, Victor, NY 14564. Payment shall follow delivery, inspection, acceptance, and submission of proper District voucher documentation, unless a different lawful payment arrangement is approved by the Board.

Insurance, Warranty and Service

The successful bidder shall maintain insurance required by law and, upon request, provide evidence of appropriate commercial general liability and workers' compensation coverage. Bidders shall state factory and installation warranty terms, nearest authorized service facility, and arrangements for parts and warranty support.

VICTOR FIRE DISTRICT **Scope of Work for UTV & Skids**	**Bidder Complies**	
	Yes	**No**
Note: The following are the minimum specifications. Bidders shall identify each exception in a separate document. The vehicle shall be fully assembled, with accessories installed and operational at delivery. All bids must include the following information: Vehicle Minimum Specifications (1) One (1) new, unused 2027 model-year or current-production six-passenger crew utility terrain vehicle. Preferred reference: Polaris RANGER CREW XD 1500 NorthStar Premium, or equal. (2) Gasoline engine with electronic fuel injection producing approximately 110 horsepower, with automatic transmission and selectable on-demand four-wheel drive. (3) Factory-style enclosed cab with full doors, roof, front windshield and rear window; heater, air conditioning, defrost, and front windshield wiper/washer. (4) Six factory occupant positions with appropriate seat belts and manufacturer-installed protective structure. (5) Power steering, four-wheel hydraulic disc brakes, parking brake and approximately 15 inches of ground clearance. (6) Rear cargo box with powered dump feature, minimum 1,500-pound bed capacity, minimum 1,600-pound payload rating and minimum 3,500-pound towing capacity. (7) Heavy-duty off-road tires and adequate electrical/charging system to operate the specified installed accessories. (8) Dealer shall provide the manufacturer's technical specifications and identify any differences from the reference vehicle. Accessories (9) Heavy-duty front and rear bumper protection and full-coverage underbody skid protection. (10) Front electric winch rated for at least 6,000 pounds, including synthetic rope, fairlead, controls, mounting and installation. (11) Manufacturer-compatible hood-mounted rack and roof cargo rack, including mounting and necessary brackets. (12) Roof-mounted LED light bar and additional vehicle work/scene lighting with all necessary switches, controls, fused wiring, and electrical integration. (13) Cab interior protective accessories, molded floor mats, and rear cargo protection, including appropriate fender/splash protection. (14) All quoted accessories shall be new, compatible with the vehicle and installed according to manufacturer instructions. State any component supplied as factory-installed instead of dealer-installed. (15) Bidder shall deliver the completed UTV, inspect and test accessories, and provide a brief operating orientation to District personnel.		

(16) Bidder shall state anticipated delivery time, factory and accessory warranties, and authorized service support location. Fire Suppression Skid (17) Provide one (1) new fire suppression skid unit, QTAC 85HP UTV Fire Skid or equal. The skid shall be compatible with the UTV cargo bed, securing points and payload rating. Specify dry and fully loaded weights, mounting method and all accessories included in the total price. (18) Tank with approximately 85-gallon water capacity, corrosion-resistant polymer construction, internal baffles, fill opening, drain, water-level indication, pump suction, and secure mounting points. (19) Gasoline-engine powered centrifugal pump, approximately 105 GPM maximum flow and 120 PSI maximum pressure, or equivalent demonstrated firefighting performance. (20) Pump plumbing with suction connection and valved discharge(s), including a discharge to a hose reel and a tank recirculation/fill arrangement. (21) Booster hose and hose reel supplied with a compatible adjustable firefighting nozzle; bidder shall identify hose diameter, length, reel type, and nozzle. (22) Bidder shall separately identify any foam system, foam tank, electric hose reel, or other options, and state whether each is included or offered as an alternate. (23) Unit shall be delivered complete, operational, tested, and secured for safe use in the proposed UTV; mounting and attachment details shall be furnished. (24) Provide installation/operating instructions, warranty, service support information, and complete wet and dry weight data. EMS Patient Transport Skid (25) Provide one (1) new EMS patient transport skid unit, QTAC EMS-F UTV Skid or equal, for secured transport within the UTV cargo area. The bidder shall verify fit, tie-down arrangements, available payload and compatibility with the proposed UTV. (26) Durable lightweight corrosion-resistant skid structure suitable for mounting in the UTV bed; identify overall dimensions and approximate empty weight. (27) Adjustable attendant seating with safety belt and patient support area suitable for the intended patient transport use. (28) Integrated securing and restraint provisions for a patient litter/basket and attendant, with appropriate mounting and tie-down hardware. (29) Designed to permit patient loading and removal and easy cleaning; include manufacturer's installation, operation and safety documentation. (30) Identify all included mounting and restraint accessories and any separate equipment required for use. No litter wheel or Stokes basket shall be included in the base bid. (31) Both skid units shall be designed for interchangeable use in the proposed UTV, with each unit capable of being independently installed, secured, and removed without permanent modification to the vehicle. All necessary mounting hardware shall be included.

Purchase of UTV and Two Rescue Skid Units

Non-Collusive Bidding Certification

Bidder / Company Name: _____

Bidder Address: _____

By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of knowledge and belief:

(1) The prices in this bid have been arrived at independently without collusion, consultation, communication, or agreement, for the purpose of restricting competition, as to any matter relating to such prices with any other bidder or with any competitor;

(2) Unless otherwise required by law, the prices which have been quoted in this bid have not been knowingly disclosed by the bidder and will not knowingly be disclosed by the bidder prior to opening, directly or indirectly, to any other bidder or to any competitor; and

(3) No attempt has been made or will be made by the bidder to induce any other person, partnership or corporation to submit or not to submit a bid for the purpose of restricting competition.

If the bidder cannot make the foregoing certification, the bidder shall submit with its bid a signed statement setting forth in detail the reasons it cannot make the certification, pursuant to GML §103-d.

Authorized Signature: _____

Printed Name: _____

Title: _____

Date: _____

For joint bids, each party must make and sign the certification for its own organization.

This form must be returned with the sealed bid.
